

Healthcare events

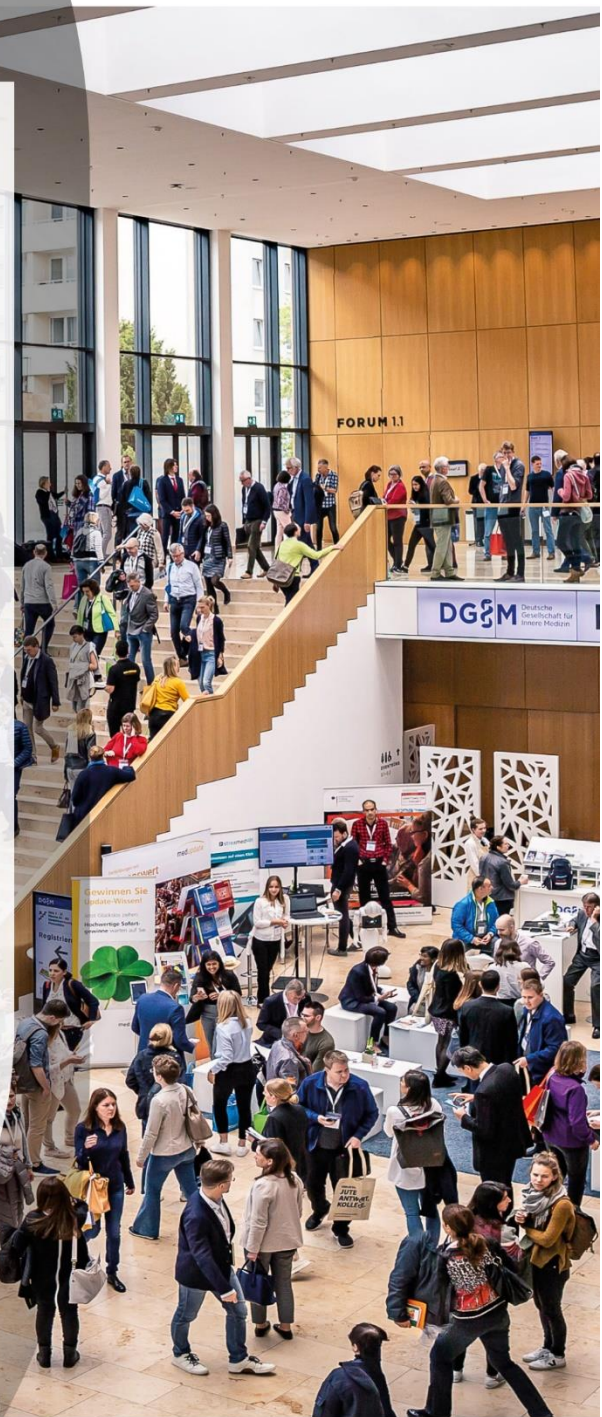

Guide for medical congresses &
healthcare events at the
RheinMain CongressCenter

The RMCC Wiesbaden

Events with healthcare professionals (HCPs) are subject to strict compliance guidelines that must be taken into consideration during implementation. In order to provide you with the best possible support and advice for this type of format, we regularly take part in training courses.

We also constantly exchange ideas with our customers and gather feedback in order to expand our knowledge.

With this guide, we present the conference location Wiesbaden and the RMCC specifically for your needs, so that you can make the right decision for the realisation of your healthcare format!

Location and accessibility

centrally situated

01

Situation:

- The RMCC is located in the heart of the Hessian state capital, in the centre of the Rhine-Main region.
- The region is an important regional centre for medical research and the pharmaceutical industry. Internationally active companies such as Merck, Sanofi, Lilly, Abbott, AbbVie and Boehringer Ingelheim have their facilities here.

Accessibility:

- Easy access to local and long-distance public transport.
- The RMCC is just a few minutes' walk from Wiesbaden's main railway station.
- Frankfurt am Main International Airport is only a 20-minute drive away.

Compliance evaluation:

- The central location and good connections of the RMCC meet the requirements of the FSA Code. Further information can be found [here](#).

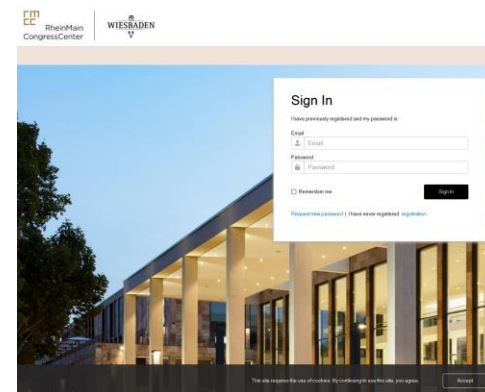

Room facilities:

- Flexible room concepts with built-in partition walls.
- Large halls on the ground floor (4,600 m² and 2,900 m²) for industrial exhibitions, for example.
- Dividable conference hall (2,500 m²) with five elements as well as smaller rooms from 20 to 270 m² for parallel specialist presentations, executive committee meetings, workshops, etc.
- Barrier-free access to the entire building.
- Clean, functional design.
- Separation of rooms for individual access control of participants possible without any problems.
- Various entrances and foyers to control the flow of visitors.

Technical features:

- Modern audiovisual technology, high-speed internet and digital signposting.
- A cost-free, web-based tool for stand construction authorisations and a web shop for exhibitors make it easier to manage the industry exhibition.

Compliance evaluation:

- The functional design of the facilities is in accordance with the FSA guidelines.
- There are no special wellness or leisure facilities.

Experience:

- The RMCC team has extensive experience in the organisation of healthcare formats (congresses, educational seminars, examinations, product presentations, etc.).
- Specific advice from trained teams with knowledge of the FSA Code.
- Participation in training courses such as the PharMed Forum and the 'Healthcare Champion Compliance Awareness Course' for ideal support.

Awards:

- The RMCC was honoured as a 'Healthcare Venue' with top marks. Further information at:
